

REGARDING THE REVISION OF THE PROCUREMENT DOCUMENTS

We are sending an amendment to the procurement documents (2026-HLD-82) regarding the procurement of International Executive Search and Recruitment Services for Senior Leadership Positions in the Energy Engineering, Trading, and Supply Chain Sectors.

Please be advised that the Buyer, on its own initiative, has decided to clarify the term “Preliminary Quantity” used in Table No. 1 of the Technical Specification by adding an explanation (in both the Lithuanian and English versions of the Technical Specification in the procurement documents), as well as to clarify the English version of the Tender Price (2.5.4.) document, also clarifying the concept of quantity therein.

The Buyer is making this amendment in order to:

- 1) Correct an obvious technical error;
- 2) Resolve a discrepancy between the Lithuanian and English versions of the published procurement documents;
- 3) Avoid potential ambiguities between the procurement documents published in two languages.

The right to amend procurement documents is provided for in Article 36(6) of the Public Procurement Law of the Republic of Lithuania.

Changes to the documents are highlighted in red.

The changes being made are not considered material changes to the terms of the procurement; accordingly, the deadline for amending the initial bids in the procurement will not be extended.
